THE MODULAR FINNISH SAUNA

The Roots of iHKA Sauna

Sauna culture represents one of the pillars of Finnish culture. Almost all Finns have a close contact with sauna.

iHKA is an ancient Finnish dialect word that means 'your own', something which has a special emotional bond with you. So, with iHKA Sauna you can have an authentic Finnish sauna experience of your own whenever needed.

Authentic Finnish Sauna

Sauna an integral part of the lives of most of the Finnish population. In a sauna, people cleanse their bodies and minds and embrace a sense of inner peace. Slowing down, breathing, enjoying time reconnecting with yourself and getting a sense of lightness/relaxation are the key concepts that underlie the Finnish lifestyle and luxury. Finland's sauna culture has been added to UNESCO's representative list of the Intangible Cultural Heritage of Humanity.

Live like Happy Finns

Finland is the happiest country in the world for the fifth time in a row, and now with an even clearer gap to those coming after. This is what the World Happiness Report published in March says, the data of which was collected in 2021.

Sauna is one reason for our happiness.

With iHKA Sauna you can start live like a Finn!

Customer Needs

Idea of an easy modular iHKA sauna was born from the desire to own an authentic Finnish sauna, designed and produced in Finland. It has become popular to build freestanding saunas in the yard at home.

Backyard saunas are ideal for single-family homes with a large yards and they can be a wonderful addition to a backyard swimming pool. However, in most cases, backyard saunas were difficult to assemble and transportation costs from Finland to Finnish sauna lovers outside Finland were high. The modular design enables compact, flat-pack, transport efficient and affordable packaging.
